PRINCE'S PROTEAN FOUNTAIN PEN.

Patented in the United States, January 23d, 1855. And also in Great Britain, Ireland, Channel Isles, and on the Continent.

This new and valuable invention has been used for months by numerous writers, in various parts of the country. The uniform testimony of those who have fairly tested its merits is in its favor.

N. B.—A new and important improvement has been recently added to this invention, by which any writer can graduate the flow of ink. The FOUNTAIN CASES ARE WARRANTED AS INCORRODIBLE, and the points of the Gold Pens are warranted for one year, with good usage.

Prof. S. F. B. MOISE, inventor of the Electric Telegraph, in a letter to Mr. Prince, says: "Your admirable invention seems now perfected. I wish you sincerely every success—a success which the intrinsic merits of your invention cannot fail to secure."

"This pen, among pens, is what Colt's revolver is among pistols. One will fire a dozen shots, and the other write a dozen sheets, with a single charge or loading."—SARA SMITH, *Author of Major Jack Downing.*

"If I could not procure another of similar merits, one hundred dollars would not purchase from me the one I have."—*A New York Clergyman.*

Rev. Dr. T. M. POSI, of St. Louis, Mo., says: "Every time I sit down to write, I feel under obligations to you for your 'Princely' invention. It is suited to my habits, in being ever ready at call in the varying circumstances of travelling, visiting, public conventions, and solitary excursions, in which the mood or demand for writing may come upon me. I need not say it is my constant companion in my study."

This pen, as a dip pen, exceeds all others yet introduced to the writing community. Other sty hard rubber goods for sale at this depot.

P R E F A C E .

THE compiler and publisher of this work deems but few words necessary to explain its design or to indicate its usefulness.

He has brought to his task the experience of nine years in the Directory business, and the determination to make his book a more convenient and a not less reliable work of reference than the official documents from which it is compiled. In almost every city of note within the sphere of his observation, a similar list is published annually; and it is a matter of great surprise, that in the commercial metropolis of this continent, the record of what should be the surest and readiest exponent of an individual's pecuniary responsibility—the assessed valuation of his real and personal property—has hitherto remained, comparatively, a sealed book.

It was the intention of the publisher to have issued this work at an earlier date; the labor of transcribing the returns of the ward assessors was commenced as soon as the time prescribed by law for rectifying errors had expired; but unusual difficulties and expenses are involved in such a publication, and any competent judge who examines the book will admit that but few printers could have executed the work from the want of "*sorts*." By far the most arduous part of the labor has been in collating and alphabetically classifying the names, and this labor has been greatly augmented by the ignorance of some of the assessors of the ordinary modes of spelling names. It would almost appear that the ingenuity of the gentlemen had sometimes been exerted to select letters other than those usually employed,

the combination of which might represent sounds approximating to the intended names. As one of many instances, it is a fact, that a well-known clergyman of this city (whose devotion to things eternal has not prevented his acquiring a very considerable proprietary interest in things temporal, and whose possessions include a goodly number of houses that "are made with hands,") has his name spelled in *ten* different ways by the assessors of the several wards in which his property is located. Hundreds of similar cases have rendered the work of assorting and revising a protracted and expensive one. But many of the assessors are amenable to the more serious charges of being incapable of, or indifferent to, the proper performance of the duties of their office. Much real estate still stands on their returns, in the names of parties whose ownership in the premises ceased long ago, some of whom have been dead for years! And what is yet more astonishing, not less than 195,765 dollars' worth of property is returned as belonging to owners "unknown." With the means of acquiring the necessary information so easily accessible, a more inspiring motive than mere official obligations might have enabled the assessors to ascertain not only in whom the right of possession is now vested, but, if need be, to have traced back its possessors for a century past. But here, unfortunately, as in almost every ramification of the public service, whether under our Municipal, State, or General Governments, the paralyzing influence of politics is deeply felt; and we shall look in vain for a reform in this department until men are selected to discharge the onerous duties of assessors from other considerations than motives of political expediency, or to reward them for partisan services.

It has been the aim of the publisher to make the "Tax Book" a valuable assistant, not only to Dealers in Real Estate, but to Underwriters, Bankers, Brokers, Lawyers, and to the mercantile community in general. The Justices of the Civil and Criminal Courts will find it invaluable for the purpose of verifying or refuting the statements of persons who present themselves to assume the obligations of bondsmen, and

future assessors may be guided by it to a more faithful and efficient acquittal of their trusts.

In conclusion, he would gratefully acknowledge the indulgent kindness of the Tax Commissioners, and the extension by them of every facility to himself and his corps of assistants, during several weeks in which they were engaged in copying the records of that office. And to Mr. Jonathan W. Allen, the senior member of the Board of Commissioners, he is particularly indebted for much valuable information and many important suggestions at the commencement of this enterprise.

WM. H. BOYD, *Publisher*,
346 & 348 Broadway.

NOTICE.

In order that the "Tax Book" might correspond precisely with the corrected returns of the ward assessors, the valuation given is the amount upon which tax is actually levied; and as the law provides for a remission to the uniformed militia of this State of the tax upon \$500 for service in the infantry, and upon \$1,000 for service in the cavalry, and to Ministers of the Gospel upon \$1,500 of the estimated valuation, it will therefore be necessary to add those amounts respectively, to ascertain the true valuation in either of the above cases.

WHEELER & WILSON'S SEWING MACHINES.

WHEELER & WILSON
MFG. CO'S.

These machines operate upon an entirely new principle—using no shuttle, but one needle and two threads. They have been in operation in the hands of families and manufacturers sufficiently long to give them a thorough trial, and have given entire satisfaction.

They are very simple in construction, and are highly ornamental, as well as useful, fitted to adorn a lady's parlor, or occupy a less conspicuous position in the shop of the artisan.

It has been our object to furnish a machine that would be applicable to *family use*, as well as to the wants of Tailors, Dress and Cloak Makers, Shirt and Collar Manufacturers, &c. We are confident that our machines, in their present form, are the best ever offered to the public. Thousands of families can testify to their merits on all kinds of family sewing, while Shirt and Collar Manufacturers freely acknowledge their superiority over all others for their work.

An examination of the Machines is respectfully solicited at our Offices,

343 Broadway, New York.

NEW ENGLAND
MUTUAL LIFE INSURANCE CO.

BOSTON, MASSACHUSETTS.

ESTABLISHED 1843.

Branch Office in Metropolitan Bank Building, 110 Broadway, New York City.

CAPITAL AND ACCUMULATION PREMIUMS TO MEET LOSSES.

Over One Million

After paying, among all holding policies, in cash (not in scrip), dividends amounting to
\$181,000.

The surplus is divided among all the members, in CASH, thus affording a good and certain rate of interest upon the outlay of premiums, and avoiding the loss of unnecessary accumulations of unpaid dividends of uncertain tendency and erroneously credited.

One half of the first five annual premiums on life policies loaned to insureds is retained; the remaining half may be paid quarterly.

The premiums are as low as those of any reliable company.

THIS IS THE OLDEST AMERICAN MUTUAL LIFE INSURANCE CO., AND ONE OF THE MOST SUCCESSFUL.

Insurance may be effected for the benefit of married women beyond the reach of their husbands' creditors. Creditors may insure the lives of debtors.

Blank form of application for insurance, or the Company's pamphlet, containing the charter, rules and regulations, also the annual reports showing the condition of the Company, will be furnished gratis.

WILLARD PHILLIPS, President.
H. F. STEVENS, Secretary.

JOHN HOPPER,

Agent and Attorney for the Company, 110 Broadway, New York.
